Health advisory ends for Mason County residential community

OLYMPIA – Residents of the Shorecrest Estates area in Mason County no longer need to boil their drinking water. A health advisory issued Wednesday has ended because lab tests show the water meets safe drinking water standards.

The Shorecrest Estates Water Co. issued the advisory as a precaution after a weather-related power outage caused a loss of water pressure. When water systems lose pressure, contaminants can be drawn into the water lines.

The advisory affected 525 homes in a residential area east of Shelton.

Residents who have questions about their water may call 360-876-0958.
